Skills

- Frameworks**
 - Node.js, Express.js
 - React
 - Ruby on Rails
- Languages**
 - Python
 - Javascript
 - Ruby
 - HTML & CSS
 - Bash Scripting
- Databases**
 - PostgreSQL
 - MongoDB
- Extras**
 - AWS Cloud Computing
 - Testing (RSpec, Jest)
 - Version Control (GitHub)
 - Agile Methodology
 - Microsoft Office
 - Microsoft Dynamic

Education

- Coder Academy**
Diploma of Information Technology
2024
- Udacity**
Intro to Programming
2023
- Royal Melbourne Institute of Technology**
Intro to Programming
2022
- Griffith University**
Bachelor of Pharmacy
2017

DERDRIU MCATEER

Junior Full Stack Web Developer

I am a junior web developer who is eager to contribute my skills, creativity, and passion for coding to a dynamic team, while continuously expanding my knowledge and expertise in web development. I bring a blend of creativity and technical proficiency to any team, offering a fresh perspective and a hunger for learning. My ambition is not just to contribute, but to excel, showcasing my dedication to delivering high-quality solutions and innovative approaches

Projects

- Portfolio Website**
React, Bootstrap
Designed a fully responsive portfolio website which features a responsive and visually appealing layout, effectively presenting my work, skills, and achievements. This project highlights my ability to create user-friendly web interfaces while demonstrating a solid understanding of React, CSS and Bootstrap for web design and development
- Coffee Simulator - Terminal Application**
Python
Created a Python script to simulate a coffee machine, demonstrating strong Python skills in object-oriented programming, data structures, and user interaction. This project showcases my ability to design and implement complex systems for practical applications.
- QR Code Application**
React - JavaScript - MySQL
Participated in a Hackathon where I contributed to a collaborative effort in developing a full-stack web application. Primarily focused on the front-end, I played a key role in crafting an engaging and user-friendly interface. This experience highlighted my dedication to creating seamless and visually appealing user experiences within a dynamic team environment.

Experience

- Magentus Practice Management**
Junior Software Engineer, Brisbane
March 2024 - Current
 - Developed and maintained web applications using React and Ruby on Rails, ensuring responsive and user-friendly interfaces.
 - Implemented scalable backend solutions with Ruby on Rails and integrated AWS services to enhance application performance and reliability.
 - Collaborated with cross-functional teams in an Agile environment, contributing to sprint planning, code reviews, and feature development.
 - Wrote clean, maintainable code and followed best practices in testing and version control to ensure high-quality software delivery.
- Chemist Warehouse**
Inventory Manager, Ireland
June 2020 - June 2023
Pharmacist Manager, Australia
January 2019 - June 2020
